3 Purposes of this Act

- (1) The main purpose of this Act is to establish a regulatory framework to safeguard against unlawful interference with aviation.

Note: Division 10 of Part 4 has additional purposes (see section 74J).

- (2) To achieve this purpose, this Act establishes minimum security requirements for civil aviation in Australia by imposing obligations on persons engaged in civil aviation related activities. In particular, it obliges certain aviation industry participants to develop, and comply with, aviation security programs.

- (4) Another purpose of this Act is to meet Australia's obligations under the Convention on International Civil Aviation (also known as the Chicago Convention).

Note: The Chicago Convention is set out in the *Air Navigation Act 1920*.

- (5) It is not a purpose of this Act to prevent lawful advocacy, protest, dissent or industrial action that does not compromise aviation security.

4 Simplified overview of this Act

This Act establishes a number of mechanisms to safeguard against unlawful interference with aviation.

Part 2 requires aviation industry participants to have in place approved transport security programs. Such programs must detail how the participants will manage security for their operations.

Part 1 Preliminary

Division 2 Purposes and simplified overview of this Act

Section 4

Part 3 allows the Secretary to designate airports as security controlled airports and to establish airside and landside areas, security zones and event zones for those airports. Once established, the areas and zones are subject to requirements directed at safeguarding against unlawful interference with aviation.

Part 4 deals with a number of specific security measures, including screening, examination, on-board security, persons in custody and offences in relation to weapons and prohibited items. It also allows the Minister to make a legislative instrument prohibiting the entry of specified kinds of cargo into Australian territory. It also allows the Secretary to give special security directions and control directions in certain circumstances. It also allows the Minister to determine a code regulating and authorising the use of optical surveillance devices at airports and on board aircraft.

Part 5 establishes the powers of officials acting under the Act. These officials are aviation security inspectors, law enforcement officers, airport security guards and screening officers.

Part 6 establishes reporting obligations in relation to aviation security incidents.

Part 7 allows the Secretary to require aviation industry participants to provide security compliance information and aviation security information.

Part 8 provides a range of enforcement mechanisms. These are infringement notices, enforcement orders, enforceable undertakings, injunctions and a demerit points system.

Part 9 provides for the review of certain decisions by the Administrative Appeals Tribunal.

Part 10 deals with miscellaneous matters.

Division 5—Approving, revising and cancelling programs

18 Providing programs for approval

An aviation industry participant may give the Secretary a transport security program for the participant and request the Secretary to approve the program.

19 Approval

- (1) If the Secretary is satisfied that the program adequately addresses the relevant requirements under Division 4, the Secretary must:
 - (a) approve the program; and

- (3) In determining whether the program adequately addresses the relevant requirements under Division 4, the Secretary may take account of existing circumstances as they relate to aviation security.

Failure to approve program within consideration period

- (4) If:
 - (a) an aviation industry participant gives the Secretary a transport security program; and
 - (b) the Secretary does not approve, or refuse to approve, the program within the consideration period;the Secretary is taken to have refused to approve the program at the end of that period.

Note: An aviation industry participant may apply to the Administrative Appeals Tribunal for review of a decision to refuse to approve a transport security program under subsection (2) or (4): see section 126.

Section 20

Secretary may request further information

- (5) The Secretary may, by written notice given to the participant within the consideration period, request the participant to give the Secretary specified information relevant to the approval of the program.
- (6) The notice must specify a period of not more than 45 days within which the information must be given. However, if more than one notice is given to the participant under subsection (5), the total of the periods specified in the notices must not exceed 45 days.

 - (b) ending on:
 - (i) the day on which the information requested in that notice was received by the Secretary; or
 - (ii) if the information was not given within the period specified in that notice—the last day of that period.

20 When a program is in force

When program comes into force

- (1) If the Secretary approves the transport security program, the program comes into force at the time specified in the notice of approval.
- (2) However, if:
 - (a) the time specified in the notice is earlier than the time at which the notice was given; or

Period in which program remains in force

- (3) The program remains in force for a period of 5 years or such lesser period as the Secretary specifies in the notice of approval (which must be at least 12 months), unless before the end of that period:

- the Secretary must, by written notice given to the participant, approve the variation. The variation comes into force when the notice is given.

Note: As the program is not replaced, the variation does not affect the period for which the program is in force. Subsection 20(3) deals with the period a transport security program is in force.

Part 2 Transport security programs

Division 5 Approving, revising and cancelling programs

Section 22

Example: A transport security program is approved on 1 January 2008. The Secretary does not specify in the notice of approval the period it is to be in force.

On 1 March 2011 a variation to the program comes into force.

The program (as now varied) will cease to be in force at the end of 31 December 2012 unless it is replaced or cancelled before then.

- the Secretary may, by written notice given to the participant, direct the participant to give the Secretary another transport security program (the *revised program*).
- (2) The notice must specify the period within which the revised program must be given.
 - (2A) If the participant gives the Secretary the revised program within the specified period, or within any further period allowed by the Secretary, sections 19 and 20 apply in relation to the revised program.
 - (3) If the participant does not give the Secretary the revised program within the specified period, or within any further period allowed by the Secretary, the Secretary must, by written notice given to the participant, cancel the approval of the existing program.

- (5) If the Secretary approves alterations of a program, the alterations come into force at the time specified in the notice of approval.
- Note: As the program is not replaced, the alterations do not affect the period for which the program is in force. Subsection 20(3) deals with the period a transport security program is in force.
- Example: A transport security program is approved on 1 January 2008. The Secretary does not specify in the notice of approval the period it is to be in force.
- On 1 March 2011 alterations to the program come into force.
- The program (as now altered) will cease to be in force at the end of 31 December 2012 unless it is replaced or cancelled before then.

Part 3—Airport areas and zones

Division 1—Simplified overview of Part

27 Simplified overview of Part

The Secretary may designate an airport as a security controlled airport and assign a category to that airport. A security controlled airport has an airside area and a landside area.

Airside security zones and airside event zones may be established within an airside area, and landside security zones and landside event zones within a landside area.

Regulations under Division 3 will detail the requirements applying to airside areas, airside security zones and airside event zones.
