

DEAR TELESCOPE THIEF

at 7:04pm Saturday 11 July 2015

You are not particularly clever. There were several motion-detecting infra-red security cameras behind you while you stole my telescope. Turn around and see them for yourself. Ya twit.

Two of those cameras have captured pictures of you and your car.

I have filed a police report but I have NOT sent my pictures of you to the police.

If you return my telescope, the police will not be notified and the matter will be forgotten.

**I GIVE YOU UNTIL TUESDAY TO
RETURN MY TELESCOPE.**

PS: Jupiter and its moons looked nice don't you think?
